Enforcement Report

April 1, 1998, through to March 31, 2000

Goal...

The goal of the Enforcement Program is to provide an orderly, problem free environment in licensed establishments thus safeguarding the interests of public safety, maintaining community standards and insuring the integrity of the liquor licensing system.

This environment is created through the co-operation of the Hospitality Industry, law enforcement agencies, and the Liquor Control and Licensing Branch.

Liquor Policy Review – Compliance & Enforcement...

In November of 1998 Jo Surich was appointed to conduct a review of liquor laws and policies that would meet today's social and health objectives. All parties recognized the need for consistent and vigorous enforcement of the rules related to liquor licenses and public safety. The recommendations that flowed from this review include:

1. Clearly defined policies for infractions laid out in regulation with specific plans for vigorous enforcement. The new regime would include a clear graduated schedule of penalties with fines or suspensions leading to licence cancellation for serious infractions, i.e. service to minors, over-service or overcrowding. The content of this regulation would be subject to consultation with the industry.
2. Liquor Control and Licensing Branch inspectors would be dedicated to Compliance and Enforcement activity and should not be responsible for licensing functions.
3. More night inspections would be conducted by Branch inspectors.
4. The complement of Branch inspectors would increase.

The implementation of the recommendations will be a phased approach to allow the Branch to put mechanisms in place before changes are introduced to the licensing program as also recommended by this policy review. In anticipation of implementation within the next 12 months inspection staff are undergoing major training initiatives including alternative dispute resolution techniques to assist in the execution of their duties. Over the next 12 to 24 months enforcement processes will be fine tuned and we expect, fully implemented at the end of the term. The development of regulations pursuant to this report to address the appropriateness of fines and other penalties will also occur.

Compliance & Enforcement Vision...

Recognizing the need for change and the development towards more consistent and vigorous enforcement, the Branch has instituted a Compliance and Enforcement Project designed to incorporate the recommendations of the Surich Report into the everyday activities of the Branch. A major component of the project identified as a goal of the Branch is to achieve voluntary compliance with the liquor laws of British Columbia. The Branch expects that this will be achieved by creating knowledgeable licensees, more frequent inspections, early interventions to problems, and the levying of effective penalties in a fair and timely manner.

The Compliance and Enforcement Program focus is to achieve voluntary compliance by having inspectors provide educational information to licensees and other key players such as the police. The educational component of the program may include written materials, meetings to discuss compliance issues, and giving workshops for licensees, their staff or to police.

It is expected that the future Branch inspection program would assist in achieving these goals. The following description demonstrates our approach.

- Initial client interview at time of licensing.
- New licensee inspections to be conducted immediately following the issuance of the liquor licence to identify any problems which need to be addressed.
- Routine inspections conducted several times during a calendar year to identify any problems that may be present.
- Administrative inspections to ensure details of ownership, structure, type of operation have not changed since the issuance of the liquor licence.
- Problem inspections. Those establishments not operating in compliance will be targeted for frequent inspections. Once the problem has been resolved they will be removed from the frequent inspection list and revert to the regular inspection program.

It is anticipated that with increased inspections there will be an increased number of hearings. To allow senior Branch staff the time to fully implement the planned Compliance and Enforcement Program the Branch intends to institute a case management approach to hearings with a case management administrator as well as a dedicated hearing adjudicator, with expertise in administrative law to carry out this function.

It is the Branch's intention to establish a pilot project for one year commencing the fall of 2000 to administer enforcement hearing adjudication.

Police Walk-Through Program...

This program acts as a deterrent to unlawful activity and constitutes an integral part of the Branch's enforcement capability. Municipal police and R.C.M.P. detachments conduct unscheduled walk-through visits of licensed establishments. Licensed Premise Check forms are provided to the Branch on the operations of licensed establishments. Evidence from police witnesses is often introduced when serious incidents become the subject of enforcement proceedings.

Illicit Liquor...

A licensee may only sell liquor that has been purchased from the Liquor Distribution Branch under the liquor licence issued to the establishment. Illicit liquor is any liquor not properly purchased from the Liquor Distribution Branch and includes stolen liquor, smuggled liquor, home brewed or u-brewed liquor and any liquor purchased as a culinary product which is being used as beverage alcohol. Illicit liquor also includes any liquor that has been diluted or adulterated. The sale of illicit liquor in licensed establishments is strictly prohibited.

The Branch is conducting regular inspections of liquor in establishments to ensure that it has been legally purchased and has not been diluted or adulterated. Amendments to the Liquor Control and Licensing Act have been proclaimed to allow the taking of liquor samples during an inspection. Significant penalties are recommended for those licensees who sell or keep illicit liquor for sale.

Illegal Industry Activities...

In order to create a fair environment where liquor manufacturers may promote and distribute their products to licensees, the Liquor Control and Licensing Branch must apply equitable solutions to any problems which may arise. For those who create these problems by breaking the law, the Branch will take enforcement action appropriate to the offense. **The Branch is particularly concerned with inducement activity between liquor manufacturers and licensees. While the Branch stresses voluntary compliance with the liquor laws, enforcement action will be taken against offenders. The prohibition against "tied houses" or any arrangement between a licensee and a liquor manufacturer that would cause a licensee to promote a particular brand of liquor is fundamental to our legislation and a significant public interest principle to support.**

The recent recommendations in the Surich report and the institution of penalty schedules and anticipated monetary penalties will add to the enforcement measures meant to deter the practices noted above. The result will be more vigorous enforcement against the offender with a view to creating an environment based on product quality competition rather than inducement.

Public Safety...

The General Manager has the authority to immediately suspend a liquor licence, order the immediate removal of patrons and closure of the establishment for up to 24 hours where the conduct of the patrons or employees of the establishment is of a riotous, violent, drunken or disorderly nature or the safety of one or more patrons in the establishment is threatened. This authority has been delegated to liquor inspectors and senior police officers throughout the province.

The General Manager also has the authority to immediately suspend a licence or impose conditions on a licence for a period not exceeding twenty-four (24) hours, if in the General Manager's opinion, it is in the public interest to do so.

Responsible Beverage Service...

The purpose of the Responsible Beverage Service Program - "Serving It Right" - is to ensure that members of the hospitality industry are aware of the problems associated with the service of beverage alcohol, and to develop strategies dealing with these problems. The Responsible Beverage Service Program is designed to encourage a responsible, professional approach to the serving of alcohol in licensed establishments. It educates participants concerning their legal rights, responsibilities and liabilities, as well as providing techniques intended to prevent problems related to the over-service of alcohol.

The Liquor Control and Licensing Branch in conjunction with the Hospitality Industry Education Advisory Committee has translated the Responsible Beverage Service Program manual into Chinese and is pursuing a translation into Punjabi.

By legislation, the Program is mandatory for both licensees and servers, with few exceptions. Consideration is being given to reducing the number of exceptions and the time frame within which the Program must be completed.

Unfortunately, enforcement action has been required in a number of instances where licensees have failed to abide by this requirement in the legislation, and suspensions of their liquor licensing privileges have been imposed.

A Word of Caution...

Continued enforcement problems could affect licensing privileges both for current licenses held and for future applications for liquor licenses. The compliance history for liquor licenses currently held or held in the past is considered during the application process for new liquor licenses.

General Provisions on Appeal of Enforcement Decisions

Pursuant to Section 31(2) of the Liquor Control and Licensing Act, a licensee has the right of appeal of an enforcement decision to the Liquor Appeal Board (LAB). Written Notice of Appeal must be delivered to the LAB within 30 days of a decision. A copy of the notice as filed must be sent by registered mail to the General Manager of the Liquor Control and Licensing Branch.

The cost of filing an appeal is $500.00 payable to the Liquor Appeal Board. The Liquor Appeal Board may assess the cost of the proceeding and may order any party to the proceedings to pay the Liquor Appeal Board all or a portion of those costs.

Decisions of the Liquor Appeal Board are appealable to the British Columbia Court of Appeal with leave of a justice of the court.

Included in the recent Liquor Policy Review is the development of legislative amendments that would restrict appeals to the Liquor Appeal Board to appeals on the error of law or procedural fairness only.

Acknowledgments

The Liquor Control and Licensing Branch wishes to acknowledge and thank:

1. The majority of licensees who, in an extremely competitive environment succeed in operating their business in compliance with the Liquor Control and Licensing Act, Regulations and Policies.

2. The police officers of the Province who, through their walk-through programs, play such a vital role in our enforcement procedures.

3. Members of the local Hospitality Industry and Liquor Licensing Advisory Committee (H.I.L.L.A.C.) who have formed to act as advisory groups in lessening enforcement problems within individual communities.

4. Our Inspectors and staff for their dedication and good work, often under demanding circumstances.

5. The members of the Liquor Distribution Branch for their valuable co-operation and assistance.

The following statistics represent the enforcement activities for this period.
